臺股的投資價值，不僅反映在外資持股比例攀升至 45.41%，也展現在參與族群的擴大，定期定額、盤中零股等小額投資機制便利年輕族群及小額投資人加入，落實普惠金融，共享臺股成長。而臺股的活絡與評價提升，也吸引更多優質的企業加入，2024 年股票初次上市家數達 36 家，再攀高峰；上市公司營收及獲利穩健增長，透過股票、債券等多元管道募集資金逾 6,000 億元挹注成長，整體籌資環境深獲市場肯定；此外，商品多元化的努力成果也展現在上市 ETF 的新掛牌數量、總資產規模及成交量值的快速成長。

The investment appeal of Taiwanese stocks is reflected not only in the increase of foreign shareholding of Taiwan's market to 45.41%, but also in the growth of various types of investors. Fixed-term fixed-amount investing, intraday odd lot trading, and other mechanisms have been implemented to successfully broaden public participation and accessibility for young investors. By fostering financial inclusion, all participants can share in the benefits of Taiwan's securities market. The vitality and enhanced rating of Taiwan's market have also attracted more outstanding companies to join. In 2024, a record-breaking 36 IPO listings were registered. The revenue and profits of TWSE-listed companies have grown steadily. Through stocks, bonds, and other fundraising channels, more than NT\$600 billion has been raised to fuel growth, a clear indicator of a robust fundraising environment. In addition, the efforts to diversify commodities have borne fruit in the rapid growth of the number of new listings, AUM, and trading volume/value of listed ETFs.

2024 年不僅臺股市場表現亮眼，在主管機關指導下，本公司為厚實臺灣資本市場的國際競爭力，重大業務推展收獲豐碩，謹分述如下：

In addition to achieving outstanding market performance, the TWSE continued to enhance the international competitiveness of Taiwan's capital market under the guidance of the Financial Supervisory Commission (FSC), with superb operational results as described below:

一、壯大資本市場 提升市場價值

本公司從深化投資人關係、解鎖企業價值潛力著手，強調將股東價值內化為企業的 DNA，設立提升企業價值計畫專區，鼓勵上市公司訂定與揭露企業價值提升計畫，並公開及向投資人說明其所關注的財務業務現況及公司未來策略。而為引領創新產業多元發展，本公司全面升級創新板制度，以打造具臺灣特色及國際競爭力之籌資平台，並積極與國內外新創生態圈交流、前進海外招商，以擴大接觸案源公司。另為提升臺股能見度，除積極參與國際證券組織活動，且以多元方式強化與國際交易所的網絡連結外，並繼美國之後，於 2024 年前進歐洲及亞洲主要金融中心舉辦引資說明會和論壇、前往中東拜會機構投資人，以及藉由國際媒體專訪與接待國內外機構來訪，使全球投資人更加認識臺灣資本市場投資利基。

1. Market Expansion for Enhanced Market Value

To deepen investor relations and unlock corporate potential, the TWSE strongly encourages businesses to adopt shareholder value into their corporate DNA. To this end, we launched the “Corporate Value Enhancement Plan Zone” to encourage companies to establish and publicly disclose their corporate value enhancement plan, allowing investors to easily access companies’ finances and future plans. The Taiwan Innovation Board (TIB), a Taiwanese fundraising platform that is internationally competitive, has undergone a comprehensive upgrade so as to boost the diversified development of startups. We initiate and maintain close contact with domestic and foreign startup circles and promote overseas investment promotion to expand our reach to companies with high potential. To enhance the international visibility of the Taiwan stock market, the TWSE is an active participant in global securities organizations and events, and has strengthened network connections with various exchanges from around the world through diverse channels. Following our visit to the United States, we held investment roadshows and forums in major financial hubs throughout Eurasia and met with institutional investors in the Middle East. The TWSE conducted a number of interviews with international media and hosted visits from domestic and foreign institutions, aiming to allow global investors a better understanding of the advantages in investing in Taiwan’s capital market.

二、鏈結利害關係人 落實永續再造

本公司全面升級 ESG InfoHub，並推出 ESG 數位平台，整合上市公司 ESG 指標資訊、永續報告書及永續經濟活動等資訊；為進一步鑑別上市櫃公司 ESG 表現，於 2024 年公司治理評鑑增加環境面與社會面指標及權重，且推動 2026 年轉型實施第一屆 ESG 評鑑。此外，子公司臺灣指數公司推出 IR 議合服務平台，支援上市公司與投資人的交流；而子公司臺灣碳權交易所之國際碳權平台於 2024 年新增藍碳及綠碳等自然碳匯專案，同年 10 月，國內減量額度交易平台啟動，協助企業落實減碳目標，並與多家機構合作培育碳管理人才，展現我國向淨零邁進的決心。

2. Connecting Stakeholders for Sustainable Transformation

The TWSE has comprehensively upgraded the ESG InfoHub and launched the ESG digital platform, which compiles information from listed companies' ESG indicators, sustainability reports, sustainable economic activities, and other information. To further spotlight the ESG performance of listed companies, the TWSE added environmental and social indicators and weighted ratings to the 2024 Corporate Governance Evaluation, which will be restyled as the first ESG Evaluation in 2026. Our subsidiaries have also made great strides this year. Taiwan Index Plus (TIP) launched its IR ENGAGE platform, supporting engagement between listed companies and investors. The Taiwan Carbon Solution Exchange (TCX) introduced international carbon sequestration projects, including blue and green carbon initiatives. In October, the "Domestic Carbon Credit Trading Platform" was established to assist companies in implementing carbon reduction targets, facilitate the training of carbon management professionals in collaboration with various institutes, and make steadfast progress toward Taiwan's goal of net zero emissions.

三、落實普惠金融 增強投資人保護

本公司 2024 年推出多項重要措施，包括縮短零股交易撮合間隔自 1 分鐘為 5 秒、開放證券商辦理認股借貸業務，及完善臺日 ETF 相互掛牌機制暨主動式與多資產 ETF 之相關法規修訂及資訊系統調適等配套，俾利 2025 年市場上有更多新型態的 ETF 商品推出。此外，面對詐騙猖獗，本公司展開「5D 反詐行動」，結合證券商及多元媒體通路，全面宣導反詐騙知識，顯著增進市場參與者的風險意識。

3. Inclusive Finance and Augmented Investor Protection

The TWSE launched a number of new measures in 2024, including shortening the odd lot trading matching intervals from one minute to five seconds, easing restrictions on margin lending for new share subscriptions, as well as regulatory amendments and information system upgrades to accommodate cross-listing of Taiwan-Japan ETFs, active ETFs, and multi-asset ETFs, and in anticipation of new types of ETF products to be launched in 2025. To combat fraud, the TWSE worked with securities firms to launch the “5D Anti-Fraud Initiative” to expand risk awareness of market participants through promotional campaigns on multiple media channels.

四、強化維運韌性 增進市場機制

本公司統籌與周邊單位就我國證券市場縮短交割週期共同縝密評估，且廣泛蒐集市場參與者建議。為營造友善外資投資環境，2024 年推出證券商與保管機構間得採買賣互抵淨額交割、放寬境外僑外投資人買賣處置證券預收款券得圈存於保管機構以及得指定二家以上保管機構等多項新制。另為資安防護全面升級及應對數位轉型的挑戰，致力於精進本公司及整體上市公司與證券商之資訊安全成熟度與防護措施，並導入高效能撮合主機系統與網路設備，增進效率及韌性，以支持公司未來新興業務發展之需。

4. Strengthening Operational Resilience and Promoting Market Mechanisms

Based on the suggestions of peripheral units and market participants, the TWSE is carefully evaluating the shortening of the settlement cycle in Taiwan's securities market. In 2024, policies were relaxed to foster a more friendly investment environment. Custodian institutions are permitted to conduct settlement with securities firms based on the net amount offset by the total buy and sell amounts for all transactions. Overseas Chinese and foreign investors can deposit securities advance payment certificates in a custodian institution, as well as appoint more than one custodian institution. To meet the challenges of digital transformation and comprehensively upgrade information security, the TWSE is committed to refining cybersecurity maturity and protection measures of our company, listed companies, and the securities industry as a whole. New servers for the trading matching system and connectivity technology have been introduced to improve efficiency and resilience and to better support the TWSE's future business development needs.

五、數位與永續雙軸轉型 打造永續高效能服務

本公司首創與財金公司攜手合作，推出「金融區塊鏈有價證券借貸銀行保證」服務，提升操作效率與便捷性；持續優化大數據監理及推動證券商智慧監理機制，以即時掌握市場異常訊號，維護交易安全與穩定。同時，為積極回應使用者需求，除了升級投資資訊中心、e 添富以及公開資訊觀測站等網站，還進一步提供更多元直觀的資訊，做為決策參考。另為實現永續發展，致力形塑企業永續文化，達成碳中和目標，2024 年本公司成為全球首家通過 BSI 查證的碳中和交易所，更獲頒多項永續發展獎項。最後，人才是企業發展的根本，為了吸引更多優秀人才加入，不僅與大學合作開設學分班，也積極參與各大徵才活動，廣納各領域的專業人才，為公司發展注入新動力。

5. Twin Transformation towards Digitalization and Sustainability, Delivering Sustainable and Efficient Services

In a groundbreaking collaboration, the TWSE and Financial Information Service Co., Ltd. (FISC) jointly launched financial blockchain bank guarantees for securities lending and borrowing services, which will improve operation efficiency and convenience. The TWSE continues to optimize big data supervision and assist securities firms in executing smart monitoring mechanisms to identify market anomalies in real time and safeguard trading security and stability. In response to user needs, the TWSE has upgraded Investment InfoHub, ETFortune, MOPS, and other websites to provide investors with more diverse and intuitive information as a reference for decision-making. The TWSE remains dedicated to creating a sustainable corporate culture to achieve carbon neutrality. In 2024, we became the world's first exchange to be awarded the carbon neutrality certificate by the British Standards Institution (BSI), and was recognized for our accomplishments in sustainable development through various accolades. Last but not least, talent is the core of business development. To attract the best talent and propel our company to new heights, the TWSE works with universities to offer accredited courses, actively participates in major job fairs, and broadly recruits outstanding talents from various fields.

展望 2025 年，國際政經環境不確定性猶存，美國新一屆政府政策及全球通膨走向續將左右市場走勢。為確保資本市場穩健成長並持續支持企業創新與轉型，本公司將以「敏捷」、「創新」及「科技」三大方針，落實四大推進方向：一、打造企業首選籌資平台；二、引領永續淨零轉型；三、拓展商品國際化；四、科技驅動創新，落實普惠金融。同時，我們也殷切期盼股東及社會各界的持續支持，讓臺灣資本市場得以不斷創新精進，為投資人與所有市場參與者開創更多的契機，邁向永續發展，共榮共好的美好未來。

Looking ahead to 2025, international geopolitical risks remain unabated, and the policy direction of the new US administration will continue to influence market trends. To ensure steady growth of the capital market, the TWSE will uphold the principles of agility in adapting to market changes, innovation in market and product development, and leveraging technology to boost our competitive edge. Our four major goals aimed at building a world-class capital market and supporting industrial transformation are: Establishing the Preferred Fundraising Platform for Enterprises; Leading the Path to Net-Zero Sustainability; Driving Product Internationalization; and Technology-Driven Innovation for Inclusive Finance. We hope that, with the continued support of investors and all market participants, Taiwan's capital market will continue to innovate and create more opportunities, accelerate progress toward sustainable development, and bring shared prosperity for all.

三、數位賦能 提升監理精準度

本公司將擴大監理科技運用於市場監視、上市公司以及證券商監理面向，一方面藉由無紙化申報及增加「機器人流程自動化」導入，優化處理效率，另一方面運用大數據分析，整合加值處理各類缺失態樣，精準判斷投資人檢舉事項，有效控管證券市場風險，保障投資人權益。

伍 精進其他重要業務

一、優化市場制度效率

(一) 縮短 IPO 訂價至掛牌作業時程：

為加速採部分競價拍賣部分公開申購之 IPO 案承銷配售流程，提升企業籌資效率，推動 IPO 訂價至掛牌時程由現行 T+10 日縮短至 T+7 日，預計 2025 年 3 月底實施。

IV Technology-Driven Innovation for Inclusive Finance

1. Enhance Anti-Fraud Measures

The TWSE will strengthen its anti-fraud defense network by allocating resources to expand public awareness campaigns through social media, industry partnerships, and securities firms. A new anti-fraud reporting platform will feature user-friendly interfaces and analytical tools. Advanced technologies will accelerate the detection of fraudulent ads, increase inspections, and block malicious activities to safeguard investor rights.

2. Promote Financial Literacy and Participation

Promotional efforts in 2025 will focus on TIB reforms and innovative ETFs, targeting diverse demographic groups, including students, young investors, and seniors. Campaigns will combine physical events with online media, achieving comprehensive nationwide outreach.

3. Digital Transformation for Precision Supervision

The TWSE will enhance market oversight of listed companies and securities firms with SupTech innovations, including paperless filing and robotic process automation (RPA) to boost efficiency. Big data analysis integrated with value-added processing to identify anomalies will aid in the precision handling of whistleblower cases, effectively managing market risks and protecting investor rights.

V Other Major Businesses

1. Optimize Market Efficiency

(1) Shorten IPO pricing to listing timeline

To shorten the timeline for IPO underwriting and allocation through partial auction and public subscription, as well as to improve fundraising efficiency, the TWSE will implement a shortened IPO pricing to listing timeline from the current T+10 to T+7, slated to go into effect at the end of March 2025.

(二) 研議 T+1 交割週期可行性，強化結算交割基礎建設：

蒐集主要證券市場實施 T+1 交割週期及跟進情形，經廣泛且深入地蒐集市場參與者意見後，將進行全面成本效益分析，預計於 2025 年就是否推動實施 T+1 交割週期完成評估報告。同時，藉由與周邊單位及業者代表組成之交割週期專案小組，積極就強化交割借券機制、優化結算交割系統、增加對證券商款券撥付作業彈性及減輕外資交割成本四面向，持續研議精進措施，預為打造有利市場作業環境。

(三) 研議上市櫃公司境外外籍員工得參加國內員工持股信託計畫：

為增加企業員工獎酬方式，創造友善的企業環境，提升發行公司員工士氣，研議開放上市櫃公司境外外籍員工得參與國內員工持股信託計畫，以利發行公司人才策略發展。

二、鬆綁及拓展證券商業務 提升財富管理競爭力

(一) 深化證券商複委託業務服務：

為強化投資人資產安全及增加證券商複委託證券保管之選擇性，主管機關已開放證券商得將受託買進之外國有價證券委由集保結算所保管，本公司將協同集保結算所規劃複委託業務服務，並持續與券商公會及業者溝通，研擬法規修正草案，透過落實風險控管及權益保障，以利主管機關開放複委託外幣融資。

(2) Evaluate feasibility of T+1 trading settlement system

The TWSE has studied the T+1 trading settlement system of major securities markets and gathered extensive feedback from market participants to conduct a comprehensive cost-benefit analysis. The assessment report on the implementation of the T+1 trading settlement system is expected to be published in 2025. Concurrently, a settlement cycle taskforce comprising peripheral units and industry representatives continues to refine measures and create a favorable market environment through the following four directions: strengthen the securities lending mechanism, optimize clearing and settlement, enhance payment options of securities firms, and reduce foreign settlement costs.

(3) Expand the scope of employee stock ownership trusts

Employee stock ownership trusts aim to reward a company's employees, foster a friendly corporate environment, and boost employee morale. The TWSE is studying the feasibility of allowing overseas and foreign employees of listed companies to participate in domestic employee stock ownership trusts, so as to facilitate the talent development strategies of issuing companies.

2. Expand Securities Business to Enhance Wealth Management Competitiveness

(1) Strengthening sub-brokerage services

To enhance the safety of investors' assets and provide flexibility for securities firms to engage in cross-border custody for sub-brokerage, the FSC amended regulations to allow securities firms to entrust the TDCC with the custody of foreign securities. With the feedback from Taiwan Securities Association and industry members, the TWSE and TDCC will propose draft amendments to regulations on sub-brokerage services, which will facilitate the FSC in allowing sub-brokerage of foreign currency financing while thoroughly ensuring risk management and protection of investors' rights and interests.

(二) 提升資金運用及效率，鬆綁分戶帳及款項借貸業務：

鬆綁臺幣與外幣分戶帳互通業務，提升資金運用綜效，實踐亞洲資產管理中心政策。

(三) 協助證券商推展財富管理業務：

鼓勵證券商設置簡易分公司，以擴展財富管理業務服務據點覆蓋率。另建請主管機關放寬受託買賣業務人員兼辦財管信託業務之範圍，得收受客戶交易指示並自行建檔，經覆核後傳回總公司執行下單。

三、提升系統與網路效能及安全性

(一) 升級雙中心光纖骨幹傳輸系統，導入交易資訊四合一網路：

提升雙中心光纖骨幹傳輸系統（DWDM）之傳輸能力至 10G，同步強化網路設備連線效能及穩定性，應對日益增長的網路流量及數位發展需求，保障高可用性與資安韌性。配合網路骨幹升級，逐一協助證券商及相關使用者進行更新轉換測試工作，提升整個網路系統的傳輸效能、處理容量及維運韌性。

(二) 強化官網防禦攻擊：

為因應近期 DDoS 資安攻擊事件頻傳，將評估導入內容傳遞網路（CDN）防護機制，並強化網站安全設定，以提升本公司官網防禦能力，讓官網對外服務能夠持續穩定不中斷。

- (2) Enhance fund utilization and relax rules on separate ledgers and lending business

Rules will be relaxed regarding the interoperability between New Taiwan Dollar denominated accounts and foreign currency accounts, which will activate fund utilization efficiency and help achieve the goal of establishing Taiwan as the premier Asian Asset Management Center.

- (3) Assist securities firms to promote wealth management business

The TWSE encourages securities firms to set up mini-branches to expand the reach of wealth management services. We recommend that the FSC relax the scope of services of entrusted trading personnel concurrently handling financial management and trust business, so that they may receive customer transaction instructions and file these themselves, to be executed after being sent back to the head office for review.

3. Improve System and Network Performance and Security

- (1) Upgrade backbone network and introduce four-in-one network for securities and futures trading

Both Information Centers will be upgraded to 10G DWDM backbone network, enhancing both connectivity and stability to address growing traffic and digital development needs, while ensuring high operability and information security resilience. In conjunction with the network backbone upgrade, we will assist securities firms and users in conducting update conversion tests to enhance the transmission performance, processing capacity, and maintenance resilience of the entire network system.

- (2) Strengthen security of official website

In response to the frequency of DDoS attacks, the TWSE is evaluating adopting CDN (Content Delivery Network) security measures to enhance website security and maintain stable and uninterrupted external services of the official TWSE website.

(三) 推動證券商提升資安防護：

參考金融業運用 AI 指引，修訂證券商資通安全檢查機制等規範，鼓勵證券商善用新科技，同時加強風險控管。另規劃於 2025 年度資安總體檢，納入新型網路服務弱點掃描工具，以強化防禦機制，另推動證券商逐步導入零信任架構，以提升資安防護能力。為提升證券商資安人員技術能力，規劃邀請證券商參與資安攻防訓練場域，結合專為資安技術訓練設計之 AI 小助教 (Chatbot)，協助資安從業人員有效提升防護與應變能力。另開辦 ISO 42001 人工智慧稽核員課程，全面提升資安人員查核技能。

(3) Promote securities firms' information security upgrading

Referring to the guidelines for the use of AI in the financial industry, the information security inspection mechanism regulations for securities dealers will be amended to encourage securities firms to harness new technologies and strengthen risk control. The 2025 comprehensive cyber security assessment will adopt web vulnerability scanning to strengthen defenses. Securities firms are encouraged to gradually introduce a zero-trust architecture to enhance cybersecurity protection capabilities. To enhance the technical capabilities and responsiveness of securities firms' information security personnel, the TWSE will invite securities firms to participate in information security attack and defense training, combined with an AI assistant (Chatbot) designed specifically for information security technical training. We will also conduct courses on ISO 42001 AI management system, to comprehensively upgrade the skills of information security personnel.
